Georgia's State Chemist Praises Cottolene

J. H. McCandless, State Chemist of Georgia, before a recent gathering of Cotton Seed men, gave emphatic praise to the high quality of Cottolene. He said:

'The sale of this product and the proclamation that it is made of cotton seed oil have done more to bring cotton seed oil truthfully and favorably before the public than anything else in recent history."

Mr. McCandless then pointed out how a pure, refined, vegetable-oil basis, such as is in Cottolene, is the only assurance a woman has of a clean, digestible, cooking product. It seems a positive wonder in the light of all that has lately been said and written, and of what is known of lard, where it comes from, of what it may be made, and how little chance there is to get pure lard, that anyone will continue its use, when pure, sweet and healthful Cottolene can be so easily obtained.

COTTOLENE Is Guaranteed Your grocer is hereby authorized to refunt your money in case you are not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an airtight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.
